

Cloud Readiness Assessment

Microsoft Azure Services Platform

Microsoft Azure Services Platform is a comprehensive offering that enables enterprises to build applications that leverage the advantages of the Cloud computing paradigm.

Cumulux Cloud Readiness Assessment enables Enterprises develop a cloud adoption roadmap by assessing the economic impact & evaluating the application portfolio readiness.

Cumulux Approach

Engagement Methodology

- Review current state of Enterprise Application Portfolio
- Rationalize the portfolio using a multi-dimensional analysis of application characteristics
- Evaluate the cloud readiness of key applications in the portfolio
- Assess the economic impact using a TCO Modeling tool
- Define roadmap for Cloud adoption including strategies for Private, Hybrid and Public clouds

Target Audience

CTO, CIO, Chief Architects, Development Managers

Cumulux Cloud Frameworks

Portfolio Rationalization, Cloud Economic Impact, Cloud Fit Analysis

Duration 2- 4 weeks

Cloud Dimension	Weight	Fit for App	Score
